Why You Need an OptiREC

OptiREC is a simple yet powerful tool that easily attaches to your existing slit lamp. It does not need to be uninstalled for you to be able to return your eye to the binoculars after taking pictures.

Patient service and education

This visual aid allows patients to better understand their eye health, which can improve their compliance with treatment and enhance their overall healthcare experience.

Store data in an organized way

It is easy to archive and retrieve high-quality medical images and information for legal, informative, or educative reasons at any time on your own smartphone with the [MicroREC app](#).

Share your diagnoses easily

Ask and show your pictures easily for a second opinion, collaborative diagnosis or simply share your work on social media, groups or secure message platforms.

IT'S COMPACT

Fits in your bag or purse.

FAST INSTALLATION

No need for engineers. You can attach it in less than a minute.

HIGH COMPATIBILITY

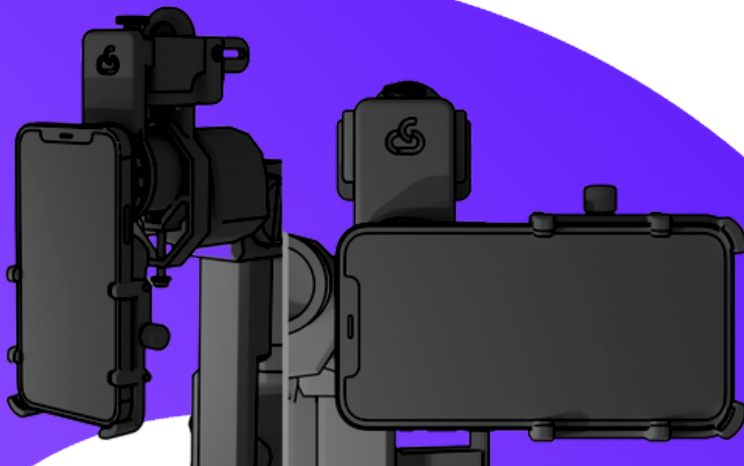

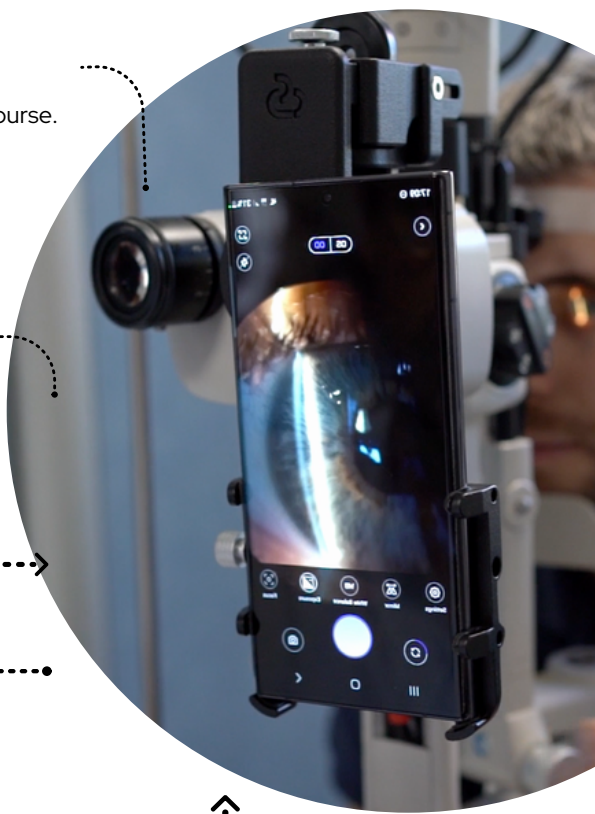

OptiREC is compatible with every smartphone and slit lamp, once it is installed in the binoculars.

BE ALWAYS UP TO DATE & CAPTURE HIGH QUALITY IMAGES

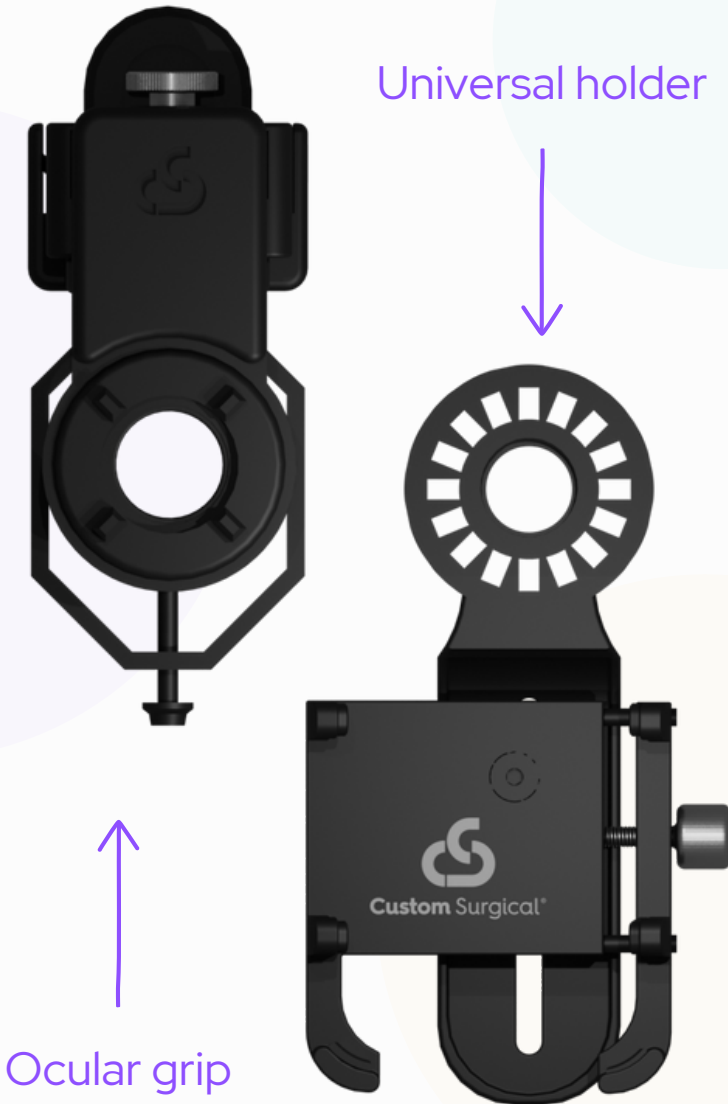

With the help of your phone you'll always be updated with the best possible technology for taking pictures of your slit lamp diagnoses.

SAVE MONEY

OptiREC is a cost-effective way to get the best quality images.

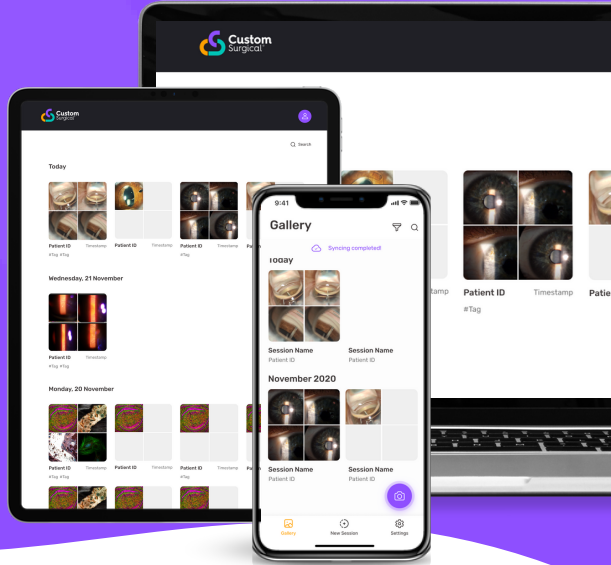

What does it consist of?

MicroREC Connect

Your data
management
platform for
medical images.

Multi-device Access

Access your microscopy images from all your devices. Whether you're at the hospital or at home, they are always at your fingertips.

Secure Storage

Your images are kept safe and secure. Additionally, Connect provides you with a backup copy in case your phone gets broken, lost, or stolen.

The most **user-friendly** way to **organize** your images and videos in a **secure place**.

Effortless

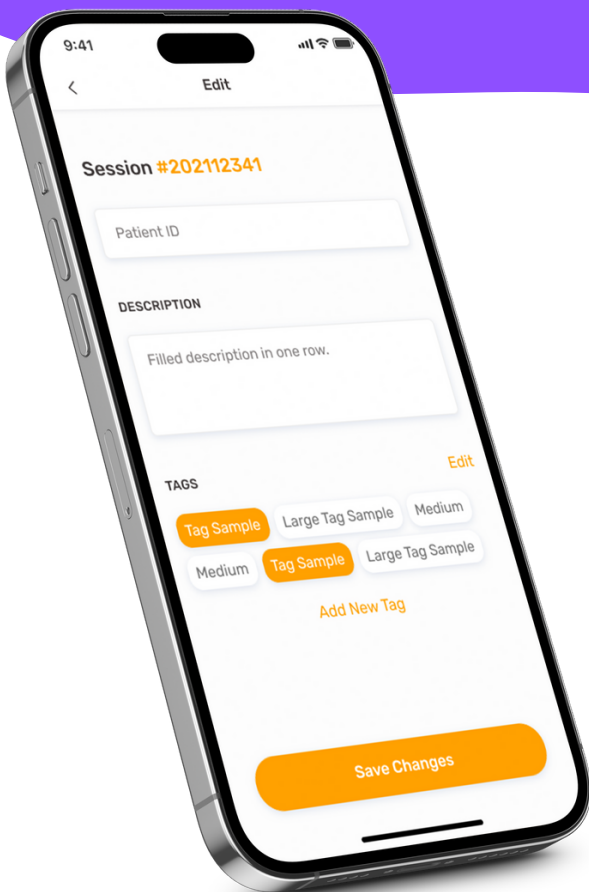

Never run out of storage. Your videos and images will be **instantly uploaded** to a **secure place**.

Save time

Find the videos you need easily with the filter or search feature.

Improve patient care

Share the examination or evolution of your patient diagnostic smoothly with **two clicks**.

**Download for free
and get access to
MicroREC Connect**

Digitize your microscope and
streamline your process.
